Add VoiceThread to eCampus

In order to use VoiceThread in eCampus a link needs to be added. Once logged into eCampus start by navigating to a content page within a course. The following example starts from a content page within a sample course.

1. From the four tabs across the section, Select **Assessments**, then **VoiceThread**.
2. A **Name** must be provided. It is suggested to provide a **Description** and optionally choose when it is available.
3. Select any **Services** and/or **Options**.
4. Once the information is entered Select **Submit**.
