Test and Survey Options

The test and survey options page provides all the options available for a test or survey. It allows instructors the opportunity to deliver their test with their requirements with ease and consistency amongst students.

A. **Test Information** - In this area as you will provide a name and description for the exam as well as choose if you would like to display the description and instructions to the students prior to taking the exam.

B. **Test Availability** - Choose when and where a test or survey can be taken as well as how many attempts and the amount of time they have to complete the exam. Restrict a test to a location for a group or an individual by inputting an IP address or range.

C. **Test Availability Exceptions** -

D. **Due Date** - Once a due date has been selected the due date will be displayed on the calendar and in the To Do module. Optionally, you can choose to not let a student take a test or survey after the due date.

E. **Self-Assessment Options** - Choose whether the test or survey score appear in the grade center or not.

F. **Show test Results and Feedback to Students** - When and if students are able to see test results or feedback. Can choose up to 2 when options. Tip: If any options are selected the question will be displayed.

G. **Test Presentation** - Choose how you want questions displayed to students, all at once or one at a time and optionally randomize questions and/or prohibit backtracking.
