DO I NEED TO PURCHASE A COMPUTER?

Having a personal computer is convenient, but before you buy a new one, check with your specific college to see if your program has computer and software requirements. it.wvu.edu/computer

WINDOWS OR MAC?

WVU supports both! Unless your major has specific computer requirements, we recommend using what you're comfortable with. You can even download Windows 11 for free and install it on your Mac using Apple's Boot Camp utility. Find instructions at support.apple.com/boot-camp.

DOES WVU SELL COMPUTERS?

Generally, no. However, the Health Sciences Center requires students to buy a standardized laptop once they are accepted into certain programs. Until then, you can use University computer labs, libraries or a personal computer. it.wvu.edu/computer

No. MyPrinting (myprinting.wvu.edu) provides direct and web-based printing. Students can go to any campuswide MyPrinting location and swipe their WVU ID to pay with Mountie Bounty (wvucard.wvu.edu).

HOW DO I KEEP MY PERSONAL INFORMATION SECURE?

Never share your Login credentials or Duo account with anyone, and don't approve a Duo push you didn't personally initiate. Don't click on a link unless you know it came from a trusted source, and when in doubt, forward suspicious emails to defendyourdata@mail.wvu.edu for review. defendyourdata.wvu.edu.
